RE: Lindsay Light II Site/RV 3 North Columbus Drive

Dear Mr. Berggreen:

Your work plan dated March 20, 2000 for the above-referenced site has been reviewed and is now approved provided the changes listed below are incorporated.

- 1) Page 10, Section 3.2 Construction Excavation Screening, first paragraph, first sentence: Change "by" to "be".
- 2) Page 15, Section 5.1, Verification Sampling: Add that U.S. EPA is the party that will do final verification. It will not be sufficient for the potentially responsible party to do their own survey and provide their laboratory results to U.S. EPA to confirm the success of soil clean-up efforts. U.S. EPA will make that determination by their own measurements.
- 3) Clearly state how construction activities will proceed, that is, east to west or north to south.

Please send to us each Monday morning via facsimile a letter detailing the activities planned for the week.

If you have any questions regarding this correspondence, please contact me at (312) 886-3601 or Fred Micke, On-Scene Coordinator, at (312) 886-5123.

Sincerely,

Verneta Simon  
On-Scene Coordinator
